

Notice of Finding of No Significant Impact
For the Camp Verde Sanitary District
Refinance RD Debt

Public Noticed on February 9, 2018 in the Sedona Red Rock News

The Water Infrastructure Finance Authority of Arizona (WIFA) has received a request for financial assistance from the Camp Verde Sanitary District to refinance a loan from the U.S. Department of Agriculture – Rural Development (USDA-RD) for a previously completed wastewater infrastructure project. The purpose of this notice is to inform the public and request comments.

Upon review of the Environmental Assessment prepared by USDA-RD for the Camp Verde Sanitary District Project, WIFA concurs with USDA-RD's March 1997 Finding of No Significant Impact (FNSI) that the project neither individually nor cumulatively has a significant effect on the human environment.

The original construction project included collection system improvements to the I-17 annexed area, a new interceptor, a new main pump station and improvements to the wastewater treatment plant. These improvements occurred in 2007 and were funded by the USDA-RD.

Documentation regarding the proposed project is available for review at WIFA, 100 N. 15th Avenue, Suite 103, Phoenix, Arizona 85007. All written requests for information or letters containing written comments should be addressed to WIFA at the address above. All written comments must be received no later than 5 p.m., 30 days from the publishing date.

WIFA complies with the American with Disabilities Act of 1990. Alternative formats for the project documentation are available upon request. Inquiries, requests and comments should be directed to Sara Konrad, Senior Program Administrator, at (602) 364-1319.
