

Public Noticed on November 22, 2016 in the Payson Roundup Newspaper

Notice of Finding of No Significant Impact
For the Town of Payson
Cragin Water Pipeline and Treatment Plant

The Water Infrastructure Finance Authority of Arizona (WIFA) has received a request for financial assistance from the Town of Payson for a drinking water infrastructure project. The purpose of this notice is to inform the public and request comments.

The Town of Payson proposes to construct a proposed water pipeline and an associated water treatment plant. The proposed project is being designed to provide a means to transport and treat surface water from C.C. Cragin Reservoir to the Town. The proposed project would begin at the existing SRP generating station Tailrace and end at the intersection of Houston Mesa Road and Hwy 87.

Upon review of the Environmental Assessment prepared by the U.S. Forest Service for the Cragin Water Pipeline and Treatment Plant, WIFA concurs with the U.S. Forest Service's Finding of No Significant Impact that the project neither individually nor cumulatively has a significant effect on the human environment.

Documentation regarding the proposed project is available for review at WIFA, 100 N. 15th Avenue, Suite 103, Phoenix, Arizona 85007. All written requests for information or letters containing written comments should be addressed to WIFA at the address above. All written comments must be received no later than 5 p.m., 30 days from the publishing date.

WIFA complies with the American with Disabilities Act of 1990. Alternative formats for the project documentation are available upon request. Inquiries, requests and comments should be directed to Andrew Smith, Environmental Program Specialist, at (602) 364-1326.
